

FISCAL YEAR 2020 2021 Department of Environmental Protection Project Applications

FY 2020 / 2021 Alternative Water Supply funded projects

Applicant	Project Name	Abbreviated Description	Total Project cost	State funds approved
City of Live Oak	Live Oak Reuse	Extend the central sewer system to remove existing septic systems near 2nd Street & Evelyn and Duval & 105th Road.	\$ 3,240,000	\$ 3,240,000
Suwannee River Water Management District	Alternative Water Supply Feasibility Studies	Conduct an analysis and feasibility study of Advanced Wastewater Treatment Facilities to provide beneficial reclaimed water.	\$ 700,000	\$ 700,000
Suwannee River Water Management District	Groundwater Recharge Wetland	Second year of a multi-year project	\$ 1,500,000	\$ 500,000
Lake Butler, City of	Lake Butler AWT Upgrade Phase 2	Second year of a multi-year project	\$ 3,400,000	\$ 400,000

FY 2020 / 2021 Springs funded projects

Applicant	Project Name	Abbreviated Description	Total Project cost	State funds approved
Alachua Conservation Trust	Columbia County Grasslands Acquisition	Less-than-fee acquisition of 514 acres of primarily mature sandhill grassland in Ichetucknee PFA and high recharge to Floridan Aquifer in the Santa Fe BMAP.	\$ 967,600	\$ 115,750
Alachua Conservation Trust	Santa Fe Springs Acquisition Project	Fee simple acquisition of 254 acres at the confluence of Olustee Creek and the Santa Fe River containing two springs.	\$ 1,390,410	\$ 617,000
Alachua Conservation Trust	Sawdust Spring Land Acquisition Project	Fee simple acquisition of approx. 163 acres in the Devil's Ear Spring PFA.	\$ 934,395	\$ 634,395
Florida Fish and Wildlife Conservation Commission	Devil's Ear Spring Recharge Land Acquisition Project	Less-than-fee simple acquisition of approximately 2,742 acres within the Devil's Ear Spring PFA.	\$ 8,301,990	\$ 2,038,000
University of Florida	On-Farm Application of Best Management Practices	This will be a multi-year on-farm demonstration project to reduce fertilizer in the Suwannee and Santa Fe BMAP and PFAs.	\$ 1,625,117	\$ 1,625,117
City of Jasper	City of Jasper Reclamation Water Project - RIBs	Construct a Rapid Infiltration Basin for treated effluent disposal. <i>This project has been cancelled.</i>	\$ 2,476,197	\$ 2,326,197

FISCAL YEAR 2020 2021 Department of Environmental Protection Project Applications

FY 2020 / 2021 River and Coastal Springs funded project

Applicant	Project Name	Abbreviated Description	Total Project cost	State funds approved
DOT/Columbia County	I-75/SR 247 Regional Pond	Construct regional stormwater ponds to treat and attenuate runoff from Cannon Creek.	\$ 8,950,000	\$ 2,510,000
Lake City, City of	PAR Chlorine Contact	Upgrade the reclaimed water treatment system to provide Public Access Reclaimed water.	\$ 1,086,340	\$ 1,000,000
Fanning Springs	Fanning Springs Wastewater Expansion	Multi-year funding to continue project	\$ 9,350,000	\$ 6,000,000
Town of Greenville	Coastal Rivers Basin SWIM Plan(Greenville Ph 1 and 2)	Phase 1 and 2 central sewer expansion to remove septic systems.	\$ 4,200,000	\$ 1,500,000

FY 2020 / 2021 Applications received that may be considered for future funding or further development

Applicant	Project Name	Abbreviated Description	Total Project cost	State funds requested
City of Archer	Archer Wastewater Systems Improvements Project	Construct a WWTF and collection system with a created wetland treatment system.	\$ 9,900,000	\$ 8,500,000
City of High Springs	High Springs WWTF Expansion	Expand the WWTF and construct a wetland treatment system.	\$ 5,863,500	\$ 5,863,500
City of Jasper	City of Jasper Wastewater Reclamation Project - Nutrien Force Main	Construct a force main to transfer treated effluent to a clay settling pond.	\$ 1,917,260	\$ 1,800,975
City of Lawtey	Water Main Replacements	Replace existing leaking water mains and install isolation valves.	\$ 1,809,600	\$ 1,809,600
City of Newberry	Sanitary Sewer Infrastructure Alachua County Agricultural and Equestrian Center	Extend the central sewer system to remove existing septic systems.	\$ 1,220,600	\$ 220,600
City of Trenton	WWTF Improvements	WWTF improvements to meet advanced wastewater treatment levels.	\$ 5,450,000	\$ 5,450,000
Jefferson County	Gum Swamp Road Improvements - Phase I	Harden the road with compacted limerock, add roadside swales to convey and treat stormwater runoff, and replace existing cross drains.	\$ 142,655	\$ 97,655
Taylor Coastal Water and Sewer District (TCWSD)	Water System Improvements Phase 1 (TCWSD)	Replace two existing wells with a well in a new location to improve water supply.	\$ 967,308	\$ 900,308
Town of Fort White	2094 Central Wastewater Improvements	Construct a regional WWTF and collection-transmission system within a PFA.	\$ 11,890,829	\$ 1,866,403

Abbreviations	WWTF-Wastewater Treatment Facility PFA - Priority Focus Area BMAP - Basin Management Action Plan
